

F5t

Work Site. Job Site. Your Site.

Compact. Lightweight. Rugged. The Motion Computing® F5t brings mobile computing to a whole new level. Get the exceptional performance of the Intel® Core™ i7 vPro™ processor and the freedom to work anywhere.

Uncompromising Performance. Exceptional Field Capabilities.

The Motion® F5t Tablet PC delivers uncompromising levels of power, performance and usability. Offering up to the 3rd Generation Intel® Core™ i7 vPro™ processor for optimized mobility, the F5t packs in a full work day with up to six hours of battery life¹ and a hot-swap battery feature for extended performance. Add in Motion's View Anywhere® technology for outdoor visibility, Gorilla® Glass for durability and capacitive dual-touch input, and users get the benefit of an industry-leading display optimized for mobile environments.

Lightweight, rugged and mobile, the F5t makes it easy to streamline processes and increase productivity. Navigate applications with the convenience of touch, take advantage of pen input for pinpoint accuracy or capture customer signatures in real time. Enhance documentation and collaboration with integrated digital cameras, barcode scanner or RFID reader. The F5t is meticulously designed, thoroughly developed and purposely built for field productivity.

Rugged

Integrated

Versatile

Work-Site Tough

Don't worry. The F5t brought its hard hat. Tested and proven to withstand field-ready conditions such as dust, heat and moisture, the Motion F5t is ready to work. The strong magnesium-alloy internal frame and standard solid state drive (SSD) protect against drops and bumps. The Motion F5t comes with Gorilla® Glass, offering advanced display protection, perfect for real-world mobile work environments. Add 180-degree viewing angles, Hydys AFFS+ LED-backlit display and View Anywhere technology for reduced reflectance and glare, and you get the best tablet PC viewing experience available for outdoor use.
